

# 6" Circular Chart Recorder

## CR2010 series

CR2010 series of circular chart recorders are available in 3 different sizes of the charts i.e. 4", 6" and 11". If you want better readability in small space, this 6" chart recorder is a perfect fit. These recorders are widely used in low temperature equipment, blood banks, incubators and many more places. It takes direct inputs from RTD Pt-100/Thermocouples / process inputs like 4-20mA. Standard chart speed varies from 1 hour/revolution to 255 hours/revolution. These recorders are microcontroller based. Crystal controlled chart drive ensures accurate chart speed. Stepper motors for both pen and chart drive, ensures no lag and no backlash. With a cutout of 200 x170 mm and smallest depth, makes it very convenient to use. Transparent polycarbonate door makes the chart visible from distance. They come with universal power supply as a standard feature. Other power supply inputs are also available.

### Features :

- 6" Chart Width
